## **Delaware County Announces COVID-19 Public Testing Site in Millbourne**

*Drive-thru and walk-up testing available for Delaware County residents and workers on September 16, 17*

Delaware County will be offering drive-thru and walk-up COVID-19 testing for residents on September 16 and 17 in Millbourne.

Testing will be conducted by trained medical staff utilizing a nasal swab (PCR) test kit.

Testing is open to all residents **12 years of age** and older and individuals who work in Delaware County who have covid-19 symptoms or who have had a known exposure to someone with covid-19 or are critical/essential workers. Critical and essential workforce—including first responders, healthcare system employees, grocery workers—and those at higher risk, including residents over the age of 65 and those with pre-existing health conditions, will be given priority.

Testing is available for both insured and uninsured individuals. There are no out-of-pocket expenses or co-pays for those with health insurance. Individuals are asked to bring their insurance card to the testing site. A prescription from a doctor is *not* required. Upon arrival, individuals will need to complete a registration form and a consent form. Masks/face coverings are required at the test site.

Test results typically take up to 5-7 business days and will be sent by mail. Please note that individuals have the option of receiving test results through an online portal hosted by HNL Lab Medicine. Individuals who elect to provide an email address will be able to create an online account on the **MyHNLAccess** portal at <https://myhnlaccess.force.com/Patients/hnlloginpage> where they can access their results. Individuals who test positive will also receive a call from the Chester County Health Department.

### **Testing Information:**
